5.3 FRUIT FLY INHERITANCE ACTIVITY

The activity you will be working on will be an ongoing activity with multiple parts. In Part A, you will be generating the genotypes and phenotypes of the “fruit flies” for your ongoing activity. Follow the instructions provided to you on the class copy page to complete Part A and create your fruit flies.

In this space, take your envelope and fold back the flap so your envelope is now a pocket! Paste the envelope in this rectangle. You will be putting your fruit fly buddies in this pocket to save for use later in this activity
